

TCM Forklift Part

TCM Forklift Parts - In the global industry of material handling, lift trucks play a major role for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained popularity after World War II in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread internationally.

Initially started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation in the industry. TCM began constructing forklift manufacturing locations outside of Japan in the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than fifty years of accumulated technology and expertise, TCM has been proudly manufacturing numerous models of industrial forklifts, making their models known all over the globe. With a strong and energetic staff, TCM has been able to continually work towards becoming a future leading material handling company.
